# TARKETT TOUCH

Yes, it really looks and feels that natural.

# TARKETT INTRODUCES A UNIQUE EXPERIENCE IN VINYL FLOORING: TARKETT TOUCH

Run your fingers along the lifelike grain, see how the light catches the finish and accentuates the natural texture. Only Tarkett Touch brings you the look and feel of real wood with all the advantages of a sustainable vinyl floor.

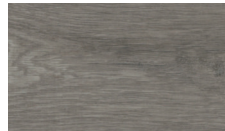

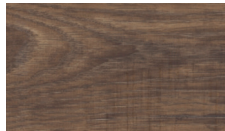

## CRAFTED OAK

Vintage style parquet with saw marks. It looks a bit rustic and marked. Almost like a recycled or distressed wood found in restored country homes. Oak, a noble wood, also fits perfectly in modern interiors.

## LIVING OAK

Traditional style oak floor with smooth designs and a nice contrast of tones for a modern touch. The colors, like wood stains, provide the structure to the knots and veins that give life to a room.
